Red Cross Quota Is \$2,187 Locally

The quota of funds to be raised in Crawford County for the March Red Cross Drive is \$2,187 of which \$1,315 is to finance county needs and \$872.20 for national needs. According to the chapter audit for the fiscal year June 1965 to 1966, \$1,533.71 was spent in Crawford County. \$540.83 was expended on Service to Military Families; \$155 for Disaster Service; \$571.50 for Blood Services and \$138.50 for other community services. As only \$1,122.23

All volunteers of the Red Cross fund drive are invited for coffee at Chief Shoppengans Motor Hotel at 2:30 p. m. on Tuesday, February 28th.

As raised in the last campaign, there would have been a deficit and there had not been a cash on hand of \$724.26 before the last drive.

As we interpret American Red Cross fund needs, it must be emphasized that no Red Cross chapter is an island. No local chapter can carry out its program without support from others throughout the United States. The \$420 chapters in this country could not complete their mission without active assistance from their National Headquarters.

Red Cross was born and now functions as an organization with national and international responsibilities. Local Red Cross chapters are part of the whole, contributing to programs of local, national and international scope. This is why a percentage of funds raised in each locality must be given to the national organization.

American Red Cross has been called upon in the past and prepared to be called upon in the future by government and nation to perform tasks for which its large and flexible organization and public acceptance best fit it.

It has been proved it can mobilize and expand to meet emergency demands. American Red Cross can do this because it has access to every community in the land, and an international channel to sister societies.

Red Cross is the only voluntary organization conducting a nationwide blood program meeting the daily needs of local communities, but ready to expand, as it has in the past, in the time of war or

The Grayling High Vikings, after splitting in two conference games last week, will be playing their final two games on their home floor this week. The green and white defeated East Jordan 89 to 75 here last Tuesday but lost to the Boyne City Ramblers there last Friday 73 to 65.

This Tuesday, Grayling will entertain the Houghton Lake Bob Cats in a non conference game and will host the Pellston Hornets in a loop contest on Friday. their final appearance for the Vikings will be Dane Madsen, Steve DuBois, Pat Thompson, Dale Slusser, Barry Holmes, LeRoy Neal, Dave Nethers, Jim Weaver, Fred Hinkle and Mike Corlew.

Dale Slusser hit a big 13 field goal and added 3 foul shots for a 20 point total. Steve DuBois added 17, Dave Bailey 13, LeRoy Neal 15 and Dane Madsen 10 to put all five starters in double figures.

They hit 27 times from 77 tries for the field for a 35 percent mark and added 21 out of 29 charity tries. They were called for 14 fouls.

On Friday night at Boyne City, the Vikings trailed 27 to 17 at the end of one period but climbed back to trail 45 to 37 at halftime. A 17 to 12 third frame about locked it up for the Ramblers although Grayling won the fourth period 16 to 11.

Slusser again paced the Grayling attack with 23 points. He was aided by Dave Bailey and Steve DuBois with 12 each, LeRoy Neal with 10, Mike Corlew 6 and Dane Madsen 2. Robert Brauer Returning Here

Many area residents are very pleased to find out that Mr. Robert Brauer will be returning to Grayling this month with another one of his multi-screen travelogues. People who attended last year's travelogue were truly amazed as the three giant screens reflected the breath-taking beauty of many of America's well known landscapes and the large stereo speakers completed the performance with some of the finest music. Last year's travelogue "America-Of Thee I Sing" was very well attended, and it is hoped that an even larger crowd will turn out for the travelogue this year.

This year's travelogue sponsored by the Fine Arts Department under Mr. Howard Taylor, will be held in the high school gym on Monday, February 27, beginning at 8 p. m. This year Mr. Brauer will present "Spring Captures Holland" a travelogue he was commissioned to create by the officials of Holland. This is the only travelogue in the world which has been created in this manner.

Whatever the subject of the evening is to be, it is a very exciting experience to see any travelogue created by Mr. Brauer. In his presentation, he uses three and four projectors, ALL AT THE SAME TIME. The pictures are accompanied by the most in stereo, phonetic sound. Even though, Mr. Brauer's travelogues are slide presentations, once they are seen it is hard to believe. They have often been referred to as a "movie-slide program" and many have made the statement "On a par with Cinemas".

Circle the date of February 27 now, to be sure that you keep that evening open and don't miss this wonderful program.

Admission for the evening is \$1 per person or \$3.50 per family group.

"Miracle Worker" February 23 & 25

On Thursday, February 23rd and Saturday, February 25th, the Viking Drama Club of Grayling High School will present William Gibson's play, "The Miracle Worker." The play will be given at the G.H.S. auditorium at 8:00 p. m. with regular admission of 50c for students and \$1.00 for adults.

Although they have been delayed for five weeks by other use of the stage, the Art Department and Shop Department are busy this week constructing the set for the play. By working extra hours each evening they expect to have the set ready on time.

A number of difficult problems had to be solved in the production of "The Miracle Worker." First of all, the leading characters, Annie Sullivan and Helen Keller, portrayed by Janice Beery and Gail Hunter, respectively, had to learn to speak the deaf-and-dumb sign language. This feat they accomplished within two weeks after rehearsals began. Miss Hunter practiced blind-folded for the Helen Keller role.

Another problem to be contended with was the construction of a pitcher pump on stage that would actually pump water. Jim Toye and Bill Johnson, working under the direction of Mr. Garrett Bute and Mr. Eli Beery, solved this problem.

Set design for the play was done by Dorothy Filley of the Art Department. A portable stage will be erected for the upstairs bedroom scenes. Portable "wagon" stages will be used for the inset scenes at the railway station and the Perkins Institute. Wing flats will be used for the Garden House scenes, the "wagon" sets were constructed by Mr. Beery's shop department students.

Costumes for the play were designed by Janice Beery and Vicki Wells, and were constructed by the students in Mrs. Compton's Home-making classes.

The Queens were introduced and the judging began. The swim suit, talent and evening gown competition followed. Miss Paxton sang a folk song accompanying herself with a guitar. Linda presented an interpretive dance to music from "Mary Poppins". Vicki sang "Wouldn't It Be Lovely" from "My Fair Lady". Tamara also sang her selection, "I'm A Big Girl Now" as she changed by removing articles of clothing from a teen age bobby soxer to a sophisticated young lady.

The three semi-finalists were announced and answered personality question following which the winners were announced. The marriage vows were spoken at 7 a. m., then the celebration moved outdoors and the couple knelt before an altar while friends filed past in a line and poured water over their clasped hands. This took two hours for everyone to pass by. The dancing and feasting lasted late into the night. One of Mrs. Moore's prized birthday presents from their children was a star sapphire from Thailand.

Word has been received in Grayling of the death of Dirk Nanninga of Groningen, Holland. Many oldsters will recall Dirk who arrived in Grayling approximately 50 years ago to work for Salling, Hanson Company to learn lumbering. A well thought of gentleman who spoke well of everyone else. It is believed Dirk leaves a family in Groningen.

Terry Smith registered last week at Central Michigan University, Mt. Pleasant, and has resumed his studies there.

Peter Funck is home from Great Lakes, Ill. after eighteen weeks active training.

Mr. Arthur Thayer was in Lansing Saturday to attend a meeting of the State Indian Affairs Commission of which he is a member.

COOR SPONSORS TEACHER INSTITUTE

The COOR Intermediate School District sponsored a Teacher's Institute for area teachers at the Mio AuSable School, Mio, Michigan on February 3, 1967.

The theme of the Institute was "Individual Differences" and resource people from Northern Michigan University at Marquette provided informative concepts in dealing with these differences.

A General Session was held in the morning with the Keynote Address being given by Dr. Kasper C. Marking and Dr. Elmer Schacht of Northern.

Small Group Sessions were held in the afternoon and the teachers selected two of the four groups to attend. Small group sessions were as follows: Teaching, Consultant, Dr. Frank A. Wolfe; Co-Curriculum Activities, Consultant, Donald R. Trost; Vocational Education, Consultant, Dr. Kauko A. Wahtera; and Guidance, Consultant, Dr. Wilbert Berg. All of the consultants are on the staff of Northern Michigan University.

A session conducted by Gerald Hanson of the COOR Intermediate District and dealing with library materials was also on the program.

Dr. Wilbert Berg presented the Summary and Evaluation and the meeting was adjourned at 3:30 p. m.

Basil I. Godbold, Superintendent of COOR Intermediate District states that the response of the teachers to the Institute was excellent.

Area Meeting Held On Proposed Training

A meeting of the Northern Michigan Association of Intermediate Boards of Education was held on February 8, 1967 at Gaylord, to inform key people of the upper portion of the lower peninsula of Michigan about legislation to support area occupational training. The legislation is being proposed by the State Department of Education, and is designed to do the following:

1. Support area occupational education programs at the rate of 75% of the cost of operation.

2. Support transportation to area occupational centers from a local school district.

3. Support construction of area occupational education centers.

The Michigan Council of Local Administrators of Vocational Education and practical Arts sponsored this meeting and provided Robert Luter of Calhoun County, Howard Maynard of Macomb County, and Philip Bailey of the State Department of Vocational Education as consultants to explain the proposed legislation.

This meeting was attended by Mr. Gilbert Stewart, President of the Kirtland Community College Board, and Mr. Basil Godbold, Superintendent of COOR. Plans are being formulated for Vocational Technical Education Programs in cooperation with area high schools and the Kirtland Community College. At the present time we have an area study in progress which will

First Phase of Planning Grant Study Completed

The Advisory Committee of the North Central Michigan Polaris-Apollo Study met with its Board of Consultants in their final meeting and the first phase of the Study. The Advisory Committee consists of representatives from the counties of Alcona, Clare, Crawford, Gladwin, Iosco, Missaukee, Ogemaw, Oscoda, Roscommon and Wexford. These ten counties are cooperating under Title III of the Elementary and Secondary Education Act of 1965 to study common educational needs, and ways that educational opportunity for rural youth can be better satisfied.

Planning Committees from each community of the ten counties, through the six intermediate school districts, have met separately and jointly approximately five times since the first of October to identify the specific areas of need and to gather data for the Advisory Committee.

The Board of Consultants are a group of college professors and educational specialists who have been contracted to guide the Project in surveying the different area of educational need and will analyze the data to determine recommendations for providing supplementary services to the twenty-two public schools and fourteen parochial schools in the ten county region.

Since the Advisory Council will need to approve the recommendations of the Board of Consultants, the combined meeting of Advisory Council and the Board of Consultants was to allow the different ed-

ucational specialists to hear what the other was proposing and to provide the opportunity for the Advisory Council to relate to the thinking prior to receiving the written recommendations.

The business meeting of the Advisory Committee prior to the joint meeting with the Board of Consultants emphasized the need for a better public relations program to relate the Project to the people and made the decision to request an extension of the Planning Grant to the 30th of September 1967.

Boy Scout Week . . .

The Boy Scouts of America celebrated the 57th anniversary of their organization February 7 to 13. Today there are over five and three-quarter million scouts in the United States alone. Scouting is dedicated to teaching boys how to do things for themselves and others.

Working to build friendship and understanding between the people of all countries, scout associations of 5 nations now coordinate their efforts through the Boy Scouts World Conference. Although each national association is independent in its organization and methods, the World Conference works to establish common ground in thinking and action among all its member associations. One of the major highlights of 1967 will be the Twelfth World Jamboree to be held at Farragut State Park in Idaho next August. The first to take place in the United States, it will bring together more than 15,000 scouts from 100 free nations. Although they will speak many dozens of different languages and come from widely varying religious, economic and cultural backgrounds, they will for a time share common experiences and pleasures and be united in the purpose of building world friendship.

In the work they are doing, the Boy Scouts deserve the respect and support of all of us. Building character in boys today shapes men of whom all the world can be proud tomorrow.

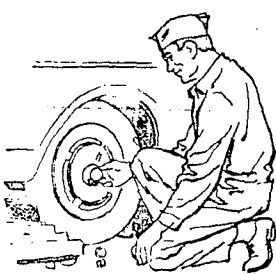

"Worse Off Today" . . .

The result of many years of a "little bit of inflation" are beginning to be felt, and the public is apparently becoming aware to some degree that government fiscal policies can breed inflation. Findings of a recent survey conducted by the Opinion Research Corporation show that 8 out of 10 people surveyed are concerned about inflation. Seventy-one per cent feel that the best way to curb it is through reduction of federal spending. The grimest findings of the survey dealt with inflation's impact on people. It revealed that the effects of inflation are being felt more seriously by the elderly and those with little education. More than 4 in 10 persons, 60 years and older, report that they are "worse off today" than a year ago. These are the very people who are supposed to be helped the most by Medicare, Medicaid, Social Security and all the other paraphernalia of the expanding welfare state.

No matter how worthy the goals of government programs, unless they are within the means of the taxpayers to support, they will end in the spreading of impoverishment as inflation saps the strength and character of our people.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE
FILES OF THE AVANCE OF 23 YEARS AGO

February 17, 1944

Our City Council and Manager George Granger do not intend to string along behind when the time comes for post-war projects. Among those formerly mentioned by the Avalanche is the building of a new, modern city hall. It has been recognized for several years past that such an edifice is needed here. Accordingly, when the former site of the Burrows Market, on the corner of Michigan Avenue and Peninsular Avenue, was offered for sale, it was purchased by the city with the intention of using it for a city hall. It fitted in very well with tentative plans drawn up by the city authorities at that time. Conditions have changed since then; it has been found to be too narrow to accommodate a new plan. What could be more adequate than a site in the Waterworks Park near the water tank? The landscape there is beautiful, and there is ample room. Besides, it affords the location of the new city hall on the main highway—US 27—"Michigan's Main Street." Such a municipal building, so located, would be most imposing, and add community prestige. Another site available is the present location of the city offices. Those communities which have well-laid plans, ready for carrying through, are sure to be at the front in the post-war plans of the Federal and State planning commission. Our City Council and City Manager are giving attention to every detail essential in planning this project.

Trailing 28 to 12 at the start of the fourth quarter last Friday night on the local gym floor, the Grayling High basketball team broke loose in a surge that carried them to within two points of tying and three of victory over Charlevoix high. The final score was Charlevoix 26, Grayling 24. This was the final home game of the season. In the preliminary game, the 8th grade easily defeated the 7th grade, 52 to 12. At Boyne City Tuesday night, Grayling lost its third conference game 25-21. The Reserves also fell, 29 to 11. Tomorrow night the Grayling High squads will play at Kalkaska.

A pleasant surprise party was given in honor of Miss Louise Feldhauser, last Wednesday evening. Miss Louise, a graduate nurse, is leaving to enter the Army Nurse Corps. A fine dinner was served, the table being beautifully decorated with a large cake in the center. A miniature figure representing a nurse topped the cake, flanked by small U. S. flags. The cake was made by Mrs. Earl Madsen. Miss Feldhauser left the following night for Camp McCoy, Wisconsin, where she is at present stationed.

Mr. and Mrs. Harry Hutchins left Friday for their new home in Midland, where Mr. Hutchins is employed by the Dow Chemical Co. The Hutchins have been residents of Grayling some four years. Mr. Hutchins having been employed by the Kerry Hanson Flooring Co. During the time the family lived here they made many friends, who regret their departure.

Woman's Club—The ten lessons on Home Economics having been concluded, the class took their final examination Monday evening at the high school. Mrs. Don Gothro has presented the lessons in an interesting as well as instructive manner, and those members of the club and outsiders who were able to take the course have been more than pleased with the result. Several movies showing calories in foods; foods high in different vitamins; proper cooking of foods and balanced diets, have added to the interest of the course. In appreciation of the untiring effort, time and thought that Mrs. Gothro has been able to give the class, Mrs. Norman Butler presented Mrs. Gothro with a fine gift, to which presentation she graciously responded. The remainder of the evening was spent in making scrapbooks of pictures depicting proper foods and diets, which will be used in the grades of the school for presenting the lessons on "Better Nutrition" to them.

Robert Kaiser left Frederic on Wednesday to enter the Navy.

The Charles Hodge farm on the Lovells Road, Maple Forest township, was recently purchased by the John Glens of Ferndale, Mich. Everett Corwin and family spent the weekend at their home.

James Kolka, S-1-c of the U. S. Navy, is enjoying a furlough visiting his father, Joseph Kolka and friends.

Mrs. Betty Skolmoski (Betty Parsons) of Detroit, visited her parents, Mr. and Mrs. Carl Parsons over the weekend.

Mr. and Mrs. Milford Post and daughter Jane of Bay City spent the weekend visiting their parents in Grayling and Frederic.

Miss Alma Bidvia spent the weekend at the home of her parents, Mr. and Mrs. Herman Bidvia and had as her guest William Garret, who was enjoying a furlough from the Army.

Mr. and Mrs. Paul Feldhauser have received word that their son Donald has been promoted to the rank of Corporal. Don is serving with the U. S. Marine Corps in the Pacific area.

Caroline and Jack Post of Frederic had as their guest for dinner last Wednesday evening, Bob Feldhauser, who was home on furlough from Camp Walters, Texas.

Mr. and Mrs. Arthur Williams are the happy parents of a daughter, Judy May, born February 9 at Mercy Hospital. There is one other girl, and four boys in the Williams family.

Mr. and Mrs. William Shaw who are spending the winter in Detroit and Ohio, spent the weekend here. They will be back at their home down on the AuSable at the first signs of spring.

For the pleasure of Mrs. Ernest Hoelsi, who was celebrating her birthday, Mr. and Mrs. Emil Giegling opened their home Saturday evening for a potluck dinner. Ten guests were present and an informal evening was spent.

Pfc. Ross Thompson is home on furlough, visiting his parents, Mr. and Mrs. Grant Thompson. He came from Las Vegas Airfield in Nevada, and returning will report at Salt Lake City, Utah, on Feb. 24. He makes a fine looking soldier and we'll wager he is a good one.

A new recruit at the U. S. Naval Training Station, Great Lakes, Ill., is Robert Charles Smock, son of Mr. and Mrs. Liland Smock of this city. He is now undergoing boot training, being indoctrinated into Navy life and being instructed in seamanship, military drill and naval procedure.

Roger and Emily Giegling came home from Saginaw Friday to spend the weekend with their parents, Mr. and Mrs. Emil Giegling. They brought with them four boys, school friends of Roger, from Arthur Hill high school Ronald McLean, Robert Lemmer, Ray Butzin and Bill Lawer. Miss Emily is a student at South Intermediate High School.

At the regular meeting of the Directors of the Grayling Chamber of Commerce, Charles E. Moore was elected vice-president to fill the vacancy caused by the resignation of Harvey Sheffer. The Directors also authorized the secretary to contact the Department of Conservation to secure a strip of lake frontage to be used as a public park for bathing and picnicking.

LETTERS TO THE EDITOR

February 10, 1967
Mr. Robert Strong, Editor
Crawford County Avalanche
Grayling, Michigan

Re: February 9th, 1967 Issue
"Notes from the Horses Mouth"

Dear Mr. Strong:

It has been brought to our attention that in the above noted article it was stated that, after a meeting between the Michigan Trail Riders Association and the City Manager of Grayling, the Trail Riders had decided to drop Grayling from their list of stops and re-route the horse trail to the North.

I'm afraid that there has been some misunderstanding here on someone's part and we would most certainly appreciate it if you would correct this in your paper for the benefit of those who might be interested.

A group from the M. T. R. A. met with Mr. Harold Cliff, City Manager of Grayling in January to discuss the possibility of improving a stopping place for horses and riders within walking distance of downtown Grayling. We suggested a fenced area where riders could safely tie horses without fear of them getting loose. Mr. Cliff felt

that this would be possible and that it would most certainly be a good addition to our trail. We explained to Mr. Cliff that we understood the town's position regarding horses in the downtown area, and that we will print Grayling's regulations on same in the next edition of the Michigan Riding & Hiking Trail Guide Book.

Later that day our group also met with representatives from the Conservation Department. We discussed some of our problems with them, including the establishment of a new camp on the Four Mile Rd. across from Corwin Farm which has been closed to us since Mr. Corwin's death last year. We also proposed that a new trail be laid out on paper that would go north of Grayling and above the artillery range. This would be an addition to our network of horse trails and would in no way replace the existing trail which goes through Grayling.

I hope this will explain all that has taken place regarding the horse trail through Grayling, and that you will see to it that this misunderstanding is cleared up.

Sincerely,
Sally L. Wilhelm, Secretary
Michigan Trail Riders Ass.

Conservation District Hinges On Hearing

By Willard Bosserman
Co. Ext. Natural Resource Agent

The public hearing Monday February 13, is important in determining whether or not the Soil and Water Conservation District will be organized. Houghton King, of Houghton Lake, chairman of the Steering Committee urges land owners to attend and express their interest. The hearing will be in the basement meeting room of the County Building in Roscommon beginning at 8 p. m.

Soil Conservation Districts have operated so successfully in Michigan that only four counties remain without one. They are Oceana, Roscommon, Crawford and Wayne.

Adoption of the system throughout the state has been a result of residents of one county seeing the accomplishments of a neighboring county through its Soil Conservation District, and deciding that they would like their area to have the same benefits.

The obvious results are common to most districts—establishment of an organized program to solve conservation problems of individual landowners as well as those requiring community action, providing farmers with individual conservation plans; making available the skills of trained conservation technicians; and providing a legal body which can receive appropriations as well as effectively request and receive help from county state and federal government units.

The counties bordering Roscommon and Crawford all have Soil Conservation Districts which provide the aforementioned services.

In addition, they work for community betterment in other ways. The Missaukee District, for example, has worked with the Michigan Department of Conservation and the County Planning Commission to develop a riding trail. As in most districts, conservation education is an important phase of the program. One method the Missaukee District uses is through distribution of informational material for use in schools.

The Oscoda District, in operation only two and a half years, has 110 cooperating landowners or occupiers. The district conducted a tree planting and timber stand improvement demonstration last spring, for both resident and non-resident landowners.

Soil and Water Conservation books were purchased for school libraries.

The Otsego District, which has 451 cooperators, has been working to see that road cuts are seeded successfully to eliminate road bank erosion.

Two Otsego county teachers are sent by the district to the annual Higgins Lake Conservation School, where they learn how to better teach young people the importance of soil and water conservation. An important part of the Gladwin District's program was co-sponsorship of the Farm Creek-Lee Drain small watershed project. Another of its activities was a water conservation tour for home economics demonstration clubs, to inform their members about what is being done and needs to be done to conserve the district's natural resources. The Gladwin District has 479 cooperators.

Clare District conducted a conservation tour for more than 500 fifth and sixth graders to give them a chance to see first-hand how soil and water conservation works.

Kirtland Community College Representative Attends Conference

Representatives of Kirtland Community College were invited to a conference on budgets for community and junior colleges on Tuesday, February 13, 1967. The conference was held in the Executive Conference Room of the Governor's Office and was conducted by Governor Romney. It was attended by representatives of junior and community colleges in Michigan. The conference was the first of a series of meetings that are being held in the formative stages, and which as yet are not offering programs in education.

Governor Romney scheduled the conference to review college budgets at the present time when proposed budget for the State, suggested tax reforms, are being considered. He explained the present circumstances of the budget for Michigan and the decline during the past year and that tax revenues were down. For these reasons he stated that his proposals for tax reform are urgent but are receiving only partial support from both houses of the Legislature. The governor stated that improved economic conditions can occur only through intelligent tax reform which will probably include a personal income tax.

Governor Romney reviewed a situation which is probably not appreciated by most citizens, in the sense that he analyzed it; the automobile industry supports the main economy of the State and it reflects the buying intentions of the entire nation. The impact on the economy of Michigan is felt immediately when potential car buyers adopt a delaying policy in placing orders for cars. Many causes affect this intention on the part of buyers but delayed purchasing is reflected in reduced tax collections in the State.

In most cases presidents of the colleges were apprehensive over the effects of probable reductions in educational budgets which may amount to 15 per cent. Expected improvements in State allotments based on fully equated student attendance will probably not take place in the coming fiscal year. Nor does it appear possible for State matching funds to equal the current 50 per cent of capital outlay. If federal grants are in similar difficulties in their assistance to junior and community colleges, administrators face possible cutbacks in programs they will be able to offer. It was their opinion that reduction in course offerings would fall mainly in the fields of vocational and technical courses since these fields of education are the most costly in any educational program.

Kirtland Community College was represented by Gilbert Stewart, Chairman of the Board of Trustees.

The Century of the

SOAP
OPERA

Those sentimental serials which accompany many a housewife's daily chores have made an important contribution to our culture. They keep us mindful of the complications of living.

You can't follow a fictional family over an obstacle course of crises without realizing that your own family, too, has its ups and downs.

Elementary in this century is the fact that life can be—but ordinarily is not—beautiful!

We live in a time that requires serious planning of our todays and tomorrows. We ought especially to be concerned for our family's spiritual fibre... for the unfolding character of our children for the religious resources with which coming crises will be met.

The Church offers opportunity and inspiration in our quest of the lofty ideals of the Christian faith. The most important decision a family can make is to seek its finest aspirations through worship, religious study, and sacrificial service.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a source of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Handy Hints

What Is Your Biggest Helper?

If I asked every homemaker in the area this question, I would get many different answers, but how many of you would think of water.

What would you do without water to wash clothes, wash dishes, cook and clean with, not to mention personal care for the family.

No doubt most of you have had experience with the scale that forms in the tea kettle. This scale also forms in your hot water heater and water pipes. It forms as a result of hard water. Hard water will also leave deposits on your clothes, dishes, hair and skin.

Soft water will help cure these problems and others. It will save you time, energy and money too! Your bill for soaps and detergents alone will be cut to one-third.

Each member of your family uses a large amount of water each day — 500 pounds per person per day. (A gallon of water weighs 8 pounds.) Cooking and cleaning uses additional water; your washer alone uses 300 pounds of water for each 10 pound load of clothes.

If you are bothered by hard water, don't feel alone; 85% of the world has hard water. Part of this 85% was at Michigan State University last Wednesday for Farmer's Week. Where homemakers learned about water and water using equipment.

New Super Kodiak

Bow Is Fred Bear's Choice

Big game bowhunting has received another shot in the arm from the Bear Archery Company. Years of improvements and field testing under the most trying conditions and three years' experience in the application of high density material have led to the development of the ultimate hunting bow, the Bear Super Kodiak.

The bow was designed, tested and approved by Fred Bear, president of Bear Archery Company and world famous bowhunter.

It has faced the subzero cold of an arctic icepack, the rugged terrain of the New Mexico backwoods, and the steaming heat of an African safari. And, it has proved practically impervious to damage by weather and rough treatment.

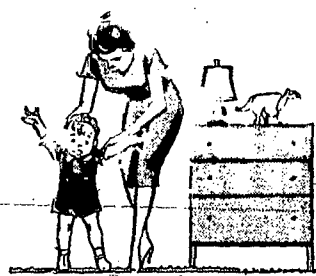

Powerful and versatile, the bow has been used to down an Alaskan Polar bear, a British Columbian grizzly, a Canadian moose, an African lion, a West African buffalo and an African lion. With dangerous game like this, the bow must be dependable. It also proved versatile enough for hunting New Mexico mule deer and Michigan whitetail.

The Super Kodiak derives its stamina, as well as its beauty, from the high density material Bear first proved in the HC-30 tournament bow and introduced into hunting last year with the Bear Super Magnum 48.

The rock-hard riser and handle give weight and solidity to the bow, deadening vibration. This, added to the crowned arrow rest and the silent arrow plate, virtually eliminates one of the bowhunter's greatest enemies — noise.

The Super Kodiak has the feel of look. The black III-Compression riser and black Bearglas-powered limbs are accentuated by the white tips and caps. A full pistol grip with a special hunter's heel makes handling easier and more certain while giving the bow a distinctive, graceful curve.

The new top-of-the-line Bear hunting bow is available in both 60-inch and 64-inch lengths, and in weights from 35 to 70 pounds (weighted at 28 inches from the front of the arrow shelf). It comes in a custom black, fleece-lined bow case.

A Great Big Thank You

Everyone is aware that success doesn't just happen. That goal is only reached through the full cooperation and unselfish contribution of many interested people. As Pageant Director of the 1967 Miss Michigan Winter Sports Pageant, I can attest to this fact. I send my sincere thank you and loud applause for a job well done to the following people: to the restaurant, motel and hotel people for their fine accommodations for the contestants, chaparrons, and special guests of the Pageant; to Pete Olson for his gratis hair styling for Miss Grayling; to Olson's of Grayling for their special gifts to Miss Grayling; to Consumers Power of Houghton Lake for the special lighting; to Bear Archery Company for the lovely trophy how presented to Miss Michigan Winter Sports; to Marge's Beauty Shop and Bear Archery Company for the special gifts presented to each of the contestants; to our general master of ceremonies, James Gibbons, of Channel 9-10 Cadillac and the very capable judges who came from Muskegon, Hillsdale, Bay City, Troy and Cadillac at their own expense to handle these duties; to Robert Bovee for handling the audio system so efficiently; to the Grayling High School and their staff for such fine cooperation and good accommodation; to Baringer's of Grayling for displaying the official Miss America trophies, crown and sashes; and to Lora Gould, Ned Olson, and Mary and Lee Welch for loaning the old ski and skate items used for the Mort Neff 'Michigan Outdoors' program. We are also grateful to Bill Scheer for furnishing Oldsmobiles for the parade and transportation throughout the weekend activities.

Grayling is indeed fortunate to have such good press relations and a special thank you goes to the Avalanche of Grayling, Wayne Clark (photographer) of Lansing, Mort Neff and Michigan Outdoors of Detroit, Fetzor Television, Inc., of Cadillac, WHGR of Houghton Lake, Week in Michigan of Lansing, The Bay City Times, and many other radio, TV and newspaper media who were present and flooded the state of Michigan with coverage of our very fine Pageant.

Enough could not be said about the Pageant Committee who worked so hard to make this Pageant a success - I would have to especially mention Mrs. William Kraus, Contestant Hostess, Mr. and Mrs. Gerald Burns of Tickets, Mrs. Arnold Mauren of Special Arrangements, Mrs. Roy Roper of the Chamber Office, and Mr. and Mrs. Donald Sherwin, Mrs. Lester Welch and "Chum" Longworth of Staging and Production, as their duties took so many, many weeks of advance preparation. I believe committee members must especially be commended as they bear so many added expenses in working for the Pageant - though many of these people cannot set back on pageant night and watch the proceedings at leisure, they too purchase admission tickets. As the Miss America Pageant stresses "The financial success of the Miss America Pageant is largely due to the fact that the Board of Directors and everyone associated with the event must purchase his or her tickets, this too must be the rule of the local preliminary pageant in order to achieve success."

I am sure that all of Grayling must be very proud of our own Miss Grayling - Vicki Lynn Wells - who performed so admirably on Saturday evening and who was awarded 2nd runner-up; all 13 contestants were lovely girls and we were so pleased to have them in Grayling; to Karen Wedge - a big thank you for her very capable duties as hostess with Vicki to these 13 contestants.

And last but not least, thank you to our very enthusiastic audience. We had many out-of-town visitors, but not too many local people. To those local people who did attend, a humble thank you for your great support. To the many scholarship donors - "without you, all of this would not have been possible".

I am very proud to have served you for two years, and I hope our association will go on and on...

Mrs. Earl H. Longworth
Pageant Director

THE REFORMERS LOOKED FORWARD TO THE RESTORATION OF GOD'S AUTHORITY IN THE LAST DAYS

One of the major tragedies of the Dark Ages was that men believed that revelation had ceased and that the canon of Scripture was closed. Yet we hear John Robinson addressing departing puritans thus: "I am very confident the Lord hath more truth and light yet to break forth out of His holy word."

Sensing a tremendous need, yet unsure of the way to satisfy it, men like Luther and Calvin tried to rebuild the flame of true Christianity. Luther himself sensed that he was preparing the way for a more complete manifestation of true Christianity as he said, "I cannot tell what to say of myself, perhaps I am Philip Melancthon's forerunner. I am preparing the way before him, like Elias, in spirit and power."

D'Aubigne's History of the Reformation, Volume 2, page 111. Roger Williams said, "There can be no recovery out of that Apostasy until Christ shall send forth new Apostles to plant churches anew."

"Struggles and Triumphs of Religious Liberty, pages 238-39. Another of the Reformers, Alexander Campbell, wrote, "But the preparation of a people for the coming of the Lord must be the result of the restoration of the ancient gospel and order of things."

The Christian System, page 311. These men looked forward to the restoration of the true Church of Jesus Christ. Do you? Worship in the church of your choice; regards,
